## POE-SP104G

### 4-Port 10/100/1000M Desktop PoE Repeater

This 4–port10/100/1000M Desktop PoE repeater Ethernet switch provides an easier installation way for PoE devices, such as IP cameras, wireless AP, VoIP. It supports 4 10/100/1000Mbps PSE (Power Source Equipment) ports and 1 10/100/1000Mbps PD (Power Devices) ports.

There is no need to use the power adapter, as this PoE switch can work through receiving power other PoE switch or equipment by PD port, and the PSE ports can supply the power to the other PD devices like PoE IP cameras, wireless AP, VoIP. The max transmission distance is 100 meters with Cat5 cables.

Plug & play design make the installation quite easy, users do not need any configuration, which make this PoE switch a very good choice for IP cameras, wireless AP, VoIP users.

#### The LED Indicator definition as below:

Indicator	Colour	LED Status	Working status		Indicator	Colour	LED Status	Working status
PoE Max Power Earling Warning Lamp	Green	On	PowerNormal		Link/Act indicator	Green	On	Network connected successfully
		3 flashes	PoE Total output power reaches up to the total power budget				flash	Transmit data normally
		Off	Power abnorma or no power supply				Off	Failed network connected or unconnected
10/100/1000M	Yellow	On	PoE Devices connected successfully		PoE Indicator	Green	On	PoE Devices connected successfully
		Off	Failed to connect PoE Devices or unconnected				Off	Failed to connect PoE Devices or unconnected
